Cookie Policy

In view of the importance of data privacy, and our obligations of transparency, we provide information below about cookies, how we use them on our website. For the other information concerning data processing conducted by Delphi Labs Ltd please refer to our privacy policy [**insert link**].

Controller

Delphi Labs Ltd, with principal office in British Virgin Islands, email delphi_labs_contracts@delphidigital.io

What are cookies?

Cookies are small text files that are sent to your computer to ensure the technical functionality of the website. Delphi Labs Ltd uses cookies in some areas of its web pages to make it easier for you to use the pages and to make them more personalized.

Terminology

When trying to understand cookies, it can help to know following terminology.

Cookies installed on your device by the organization running the website you are visiting are known as "first party" cookies.

Cookies installed on your device via the website you are visiting by another organization are termed "third party" cookies. An example is a cookie set by a specialist website analytics company that provides the website owner with data on the numbers of people visiting its website (Cookies for range and usage analysis).

So-called "persistent cookies" remain on your device even after you close your internet browser. They are activated each time you visit the website that created that particular cookie. For example, where a "persistent cookie" is used on a website to remember your login details, you will not need to enter those details each time you visit that website (Functional and preference cookies).

"Session cookies", by contrast, are temporary and are typically used to enable the website to operate, e.g. by permitting a user to move from page to page without having to log in again. Once you close your browser, all session cookies are deleted (Technically necessary cookies).

"Strictly Necessary Cookies" are cookies without which you would not be able to use this website. For example, Strictly Necessary Cookies adjust the website data transmitted to match your Internet connection, get you to the secure versions of the website, and help provide services you specifically request. If you set your browser to block these cookies, some parts of the website will not work. Strictly Necessary Cookies do not store any personal data.

"Functional cookies" allow the website to remember choices you make and provide enhanced functionality and more personalized features. Depending on context, Functional Cookies may store certain types of personal data as needed to provide functionality.

Moreover, "performance cookies" allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site. All information these cookies collect is aggregated and therefore anonymous. If you do not allow these cookies we will not know when you have visited our website, and will not be able to monitor its performance.

What cookies do we use?

This website uses cookies that are necessary for the technical functionality of our website and the recognition of errors or to offer a service or functionality requested by you. These is the list of cookies used by our website:

Cookie key	Used on	Domain	Cookie type	Description
SIDCC	faucet.marsprotocol.io	www.google.com	Third party cookie	Strictly necessary

_cflb, _cf_bm, cf_ob_info	.marsprotocol.io	.marsprotocol.io	Third party cookie	Strictly necessary

How to control cookies

The cookies used by the our websites allow you to take full advantage of the functionalities of our websites. In order to offer certain functionalities, certain technically necessary cookies can be used to display these functionalities correctly. Therefore, you cannot reject the use of these cookies.

Be aware that you can set your web browser to disable cookies. Please note that most browsers offer different ways to protect your privacy. If you do not activate or deactivate certain cookies via the browser settings, it is possible that certain functionalities will not be available to you as expected. For example, you can allow first-party cookies, but block third-party cookies, or receive a notification each time a website wants to install a cookie.

Cookie settings in Internet Explorer

Please note that if you disable cookies in this way, you will not be able to set new cookies. However, it will not prevent previously set cookies from continuing to work on your device until you clear all cookies in your browser settings. Instructions for managing cookies on your browser can usually be found under the browser's help function or in the operating instructions for your smartphone.

Contact

If you feel that the above is not sufficient or if you have any queries as regards the collection, processing or use of your information we are looking forward to hearing from you. We will make every effort to reply as soon as possible and take into consideration any suggestions from your end.

If you have any questions, comments, or concerns regarding our Cookie Policy and/or practices, please contact us at delphi_labs_contracts@delphidigital.io
